Firm name: _____ Email: _____

Address: _____

By: _____ Phone number: _____

(print name clearly)

Signature: _____ ASSE Cert. #: _____

Reminders:

The 2020 plumbing code requires that all testable backflow devices be tested upon installation and at least annually thereafter by a certified backflow assembly tester. All testers must be certified to meet ASSE 5110.

The fee for backflow prevention assembly registration is \$40.

Each backflow assembly registration test form must be submitted through our [ePermits](#) system under "backflow assembly registration test form".

Backflow devices which are new, replacement, or disconnect require a plumbing permit and inspection by the City of St. Louis Park.
